HARTFORD HOUSING RESOLUTION

May 22, 2024

TO: Members of the Board of Trustees 

FROM: Jeffrey P. Geoghegan, CPA
Executive Vice President for Finance and Chief Financial Officer

RE: Term Sheet and Master Lease with Shelbourne Pratt Development for Student Housing at UConn Hartford

RECOMMENDATION:

Should the Board of Trustees approve of the material terms as outlined herein and in the draft Term Sheet attached, that the Board of Trustees provide approval for the Administration to enter into a Term Sheet, Master Lease and any other auxiliary and necessary documents to effectuate the development, occupancy, and operation of student housing at 242 Trumbull Street in Hartford, CT.

RESOLUTION:

“Be it resolved that the Board of Trustees provides approval for the Administration to enter into a Term Sheet, Master Lease and any other auxiliary and necessary documents to effectuate the development and occupancy of student housing at 242 Trumbull Street in Hartford, CT.”

BACKGROUND:

Shelbourne Pratt Development (“Shelbourne”) is the owner of an existing eight-story commercial office building located at 242 Trumbull Street, approximately one-half mile northwest of the UConn Hartford campus. Shelbourne has proposed to convert the existing office building to residential units. The rear portion of the building, which is known as the Annex and fronts Pratt Street, is four stories high and is ideally suited in width and size for student housing. New apartment units can be constructed and customized for approximately 200 beds of student housing, and this represents a unique opportunity to attain contiguous and segregated student space within a building near the campus. Shelbourne will be responsible for designing, building and financing the development of the student housing, and the University will enter into a long-term lease when it is complete. The University has the power to lease real property with Board approval pursuant to Connecticut General Statutes section 10a-109d(7).

The University conducted a survey of the students at the UConn Hartford campus regarding their interest in university-provided housing in early 2023. 430 of the 1250 undergraduate students at the campus responded to the survey, which was an unusually high participation rate. 70% of the respondents expressed interest in university-provided housing, but since most live with their parents currently, over 50% indicated that housing expenses would need to be at or below

\$750/month or \$7,500 per academic year for it to be affordable. Rent subsidies will therefore be required for some students to be incentivized to take university-provided housing.

FINANCIAL COMMITMENT:

The term of the Master Lease for approximately 50 apartment units and 200 beds of student housing is twenty (20) years, with two 5-year extension options at the University's discretion. The Year One rent payment is approximately \$2.2 million and the rent escalates 2.75% per year. There is no capital monetary commitment from the University and the costs of all construction and fit-out of the apartment units will be borne by Shelbourne. Shelbourne is also responsible for installing all security monitoring systems, access control systems, and cable/Wi-Fi. The University is responsible for providing any audio-visual devices for non-apartment spaces and furniture for the apartments, which is estimated at approximately \$500,000 combined.

Given projected housing rates, which will be consistent with housing rates at the Storrs campus for comparable housing, and estimating maintenance expenses and rent subsidies, and if the housing operates at full occupancy, it is anticipated that the new housing will run at an annual deficit in the range of \$1.5 million. Philanthropy and/or naming rights of the residence hall may potentially off-set some or all of this operating deficit.

OTHER PERTINENT LEASE TERMS:

Other pertinent terms of the Master Lease are as follows:

- The Master Lease commencement will be at the beginning of an academic year and upon substantial completion of the construction, which is currently targeted for August 2026
- The unit mix and unit design are subject to the University's approval
- The University will have the right to install signage with the name of the residence hall on the exterior portion of the building that is occupied
- The construction will be done utilizing prevailing wage labor rates
- Shelbourne will endeavor to meet the Universities S/MBE contracting goals
- In addition to the Master Lease base rent, the University is responsible for the payment of expenses from utility usage, cable, telephone and Wi-Fi directly to service providers
- Shelbourne is responsible for the payment of property taxes and insurance on the building
- Maintenance and appliance repairs/replacement are generally the responsibility of Shelbourne, but the University would be responsible for intentional or negligent damage caused by its employees, agents, students or guests.
- Occupants are required to remove trash from the units to a central location, but Shelbourne is responsible for dumpster rentals and off-site trash removal
- The University will have the right to sublet the units to the market if they are not all rented by students (but this practically might cause some operational issues in mixing students and the public within the same premises)
