TO: Members of the Board of Trustees

FROM: Dr. Radenka Maric 

RE: Naming Recommendation for the National Laboratory for Occupational Heat Safety at UConn's Korey Stringer Institute Powered by Magid & Mission

RECOMMENDATION:

That the Board of Trustees name the National Laboratory for Occupational Heat Safety at UConn's Korey Stringer Institute as the "National Laboratory for Occupational Heat Safety at UConn's Korey Stringer Institute Powered by Magid & Mission." The Laboratory is located on the basement level of Gampel Pavilion and is managed under the Department of Kinesiology within the College of Agriculture, Health and Natural Resources.

BACKGROUND:

The research lab space is planned to be approximately 940 square feet and is expected to be used to support growth and sustainability of the Institute's research on heat safety for the workforce.

Both Mission and Magid are corporate partners of the Korey Stringer Institute with particular interest in the Institute's research, advocacy, and impact on occupational heat safety of the laborer workforce. Each company has pledged a commitment to the Institute totaling an amount consistent with the University's *Named Gift Guidelines*.

At its June 4, 2024, meeting, the Institutional Advancement Committee recommended approval to the full Board.
