SEM: AN ENTERPRISE RESPONSE

*“Strategic enrollment management (SEM) is a **concept and process** that enables the fulfillment of institutional mission and students’ educational goals.” ~ Bob Bontrager*

Strategic Enrollment Management is a comprehensive process designed to help an institution achieve and maintain the optimum recruitment, retention, and graduation rates of students, where “optimum” is defined within the academic context of the institution. As such, SEM is an institution-wide process that embraces virtually every aspect of an institution’s function and culture. ~ Michael Dolence

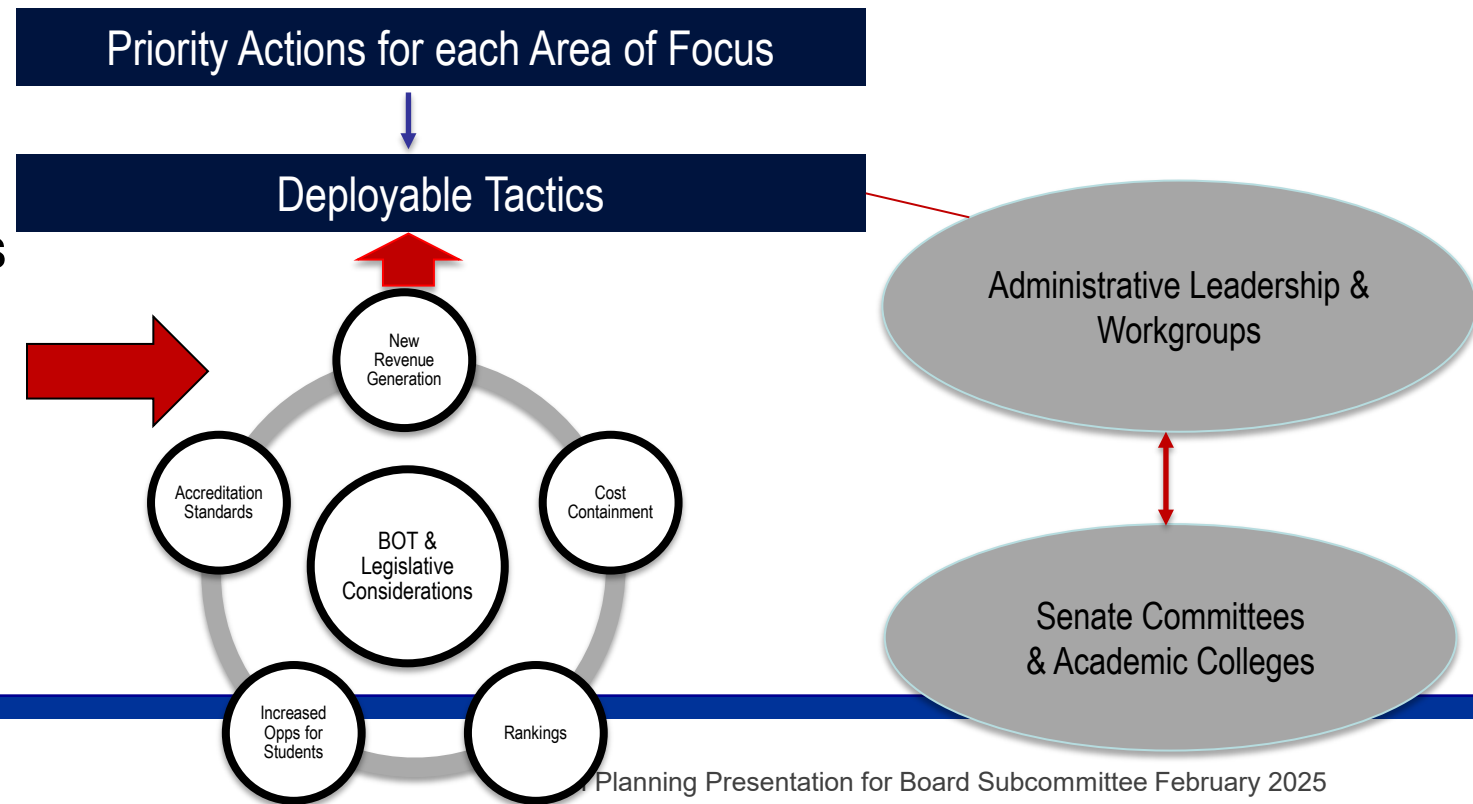

*Enrollment management is a comprehensive and coordinated process that enables a college to identify enrollment goals that are allied with its mission, its strategic plan, its environment, and its resources, and to reach those goals through the **effective integration of administrative processes, student services, curriculum planning, and market analysis.***

~ Christine Kerlin

- When they are linked and integrated, outline their expected cumulative effect.

EXTEND

- Analyze how those strategies move the needle toward enrollment goals.
