TO: Members of the Board of Trustees

FROM: Dr. Radenka Maric 

RE: Designation as Board of Trustees Distinguished Professors
Academic Year 2025-2026

RECOMMENDATION:

That the Board of Trustees accept the recommendation of the Distinguished Professor Review Committee and designate the following faculty members as University of Connecticut Board of Trustees Distinguished Professors: Dr. Bruce Liang (School of Medicine), Dr. Jeffrey Ogbar (Department of History), and Dr. Rebecca Puhl (Department of Human Development & Family Sciences).

BACKGROUND:

On November 10, 1998, the Board of Trustees voted to establish the title of Board of Trustees Distinguished Professor. This designation is the University's highest academic honor.

Pursuant to the By-Laws of the University of Connecticut, the Board of Trustees Distinguished Professor award is reserved exclusively to recognize faculty who have achieved exceptional distinction in scholarship, teaching, and service while at the University of Connecticut. Faculty chosen must have distinguished themselves in all three of these categories. The designation process occurs annually, as a result of a peer review process.

After careful deliberations, the Review Committee recommended the three individuals named above. I am recommending that the Board of Trustees designate these faculty as its Distinguished Professors.

Dr. Bruce T. Liang

Dean, School of Medicine

Ray Neag Distinguished Professor of Cardiovascular Biology and Medicine

Dr. Bruce T. Liang is a preeminent cardiologist, educator, and healthcare leader who has had profound impacts in research, medical education, and public health.

In research, Dr. Liang has made enduring contributions to the field of ischemic vascular disease, which prevents sufficient blood from reaching the heart, brain, and other vital organs. For example, he developed a biomarker that assesses the extent of ischemic injury and the effectiveness of treatments designed to prevent or reduce that damage. He also developed a new anti-inflammatory approach to therapeutics for stroke and for heart attack. Dr. Liang has been awarded 18 U.S. and foreign patents for his discoveries, some of which have formed the basis for a UConn startup company, Provascor, which has been funded by private funds and Connecticut Innovations.

Dr. Liang has served Ray Neag Distinguished Professor of Cardiovascular Biology and Medicine since 2002 and has held leadership positions of increasing responsibility at UConn Health, including Director of the Pat and Jim Calhoun Center for Cardiology, Dean of the Medical School, and Interim CEO. Under his leadership, the School of Medicine (SOM) transitioned from a lecture-based curriculum to a team-based learning approach, which has improved educational outcomes for students, strengthened the school as a whole, and is serving as a model for other medical schools. As dean, Dr. Liang led the expansion of the school from 80 to 114 students to address the state's need for more physicians and surgeons and increased the clinical and research faculty by more than one-third. Dr. Liang also oversaw the expansion of the graduate medical residency program from 654 to 775 doctors and the fellowship programs from 58 to 82 between FY16 and FY25. The school now ranks in the top 10% of all U.S. schools as a sponsor of graduate medical education.

In public service, Dr. Liang has helped shape policy and influence major initiatives that have strengthened the Connecticut's ability to offer quality health care to all its citizens. During the pandemic year of 2020, Dr. Liang served on the Advisory Committee to the State of Connecticut on a risk-based strategy for its Covid-19 response. He currently serves as a member of the Advisory Committee on Immunization Practice to the State of Connecticut Commissioner of Public Health.

In addition to his research, teaching, and leadership roles, Dr. Liang is an active clinician who has personally cared for thousands of patients suffering from heart disease and has saved numerous lives.

Dr. Liang received his B.A. and M.D. degrees from Harvard University. He completed his medical residency in Internal Medicine at the Hospital of the University of Pennsylvania and his clinical fellowship in Cardiology, Brigham and Women's Hospital concurrently with a research fellowship in Medicine at the Harvard University Medical School.

Dr. Jeffrey Ogbar

Professor of History

Founding Director, Center for the Study of Popular Music

Dr. Jeffrey Ogbar is one of the nation's most accomplished scholars of African American history and Black social movements. After earning a BA from Morehouse College and a Ph.D. from Indiana University, he arrived at UConn's Department of History in 1997. He has since made indelible contributions to the University's administrative and academic arenas. His award-winning body of scholarship has had a transformative impact on the ways we understand race, resistance, and identity in the modern United States. He is the author of four monographs, four edited books, and over two dozen book chapters and peer-reviewed journal articles.

Following a fellowship at Harvard University's W.E.B. Du Bois Research Institute, Dr. Ogbar published his first monograph, *Black Power: Radical Politics and African American Identity* (Johns Hopkins University Press), a widely-cited and seminal text that analyzes the ideological diversity within Black Power politics. His monograph, *Hip-Hop Revolution: The Culture and Politics of Rap* (University Press of Kansas), received the W.E.B. Du Bois Book Prize. Frequently assigned in universities, it is considered one of the top ten books on the history of hip-hop by the world's leading hip-hop magazine, *The Source*. His recent monograph, *America's Black Capital: How African Americans Remade Atlanta in the Shadow of the Confederacy* (Basic Books), was named one of the "Best Books of 2023" by *Publishers Weekly*, won the Georgia History Archives Award for 2024, and was a finalist for the 2024 Book Prize from the Association for the Study of African American Life and History. His 2026 book, *Land of Our Own: Malcolm X and the Evolution of Black Nationalism* (Polity), will be released this summer.

Dr. Ogbar's teaching links scholarship with social understanding to inspire students to see themselves as active participants in the creation of knowledge. In graduate teaching, Dr. Ogbar's courses explore the intersections between historical scholarship and contemporary social theory to help students develop the critical and methodological tools for original research. He has served as a major advisor for four doctoral students and a member of over 20 dissertation committees across departments.

For over a quarter-century, Dr. Ogbar has served UConn in numerous leadership capacities. As the Director of the Institute for African American Studies, he led the creation of the University's first major and minor in the field. After serving as Associate Dean in CLAS, he was appointed Vice Provost and Chief Diversity Officer. In this position, he advanced university-wide initiatives to improve access, equity, and student success, including efforts to support the retention and achievement of first-generation students. He later established the Center for the Study of Popular Music, which, among other programming, brings visiting scholars and artists to campus. He is a former two-term President of the AAUP and received the Provost's Outstanding Service Award in 2021 in recognition of his exceptional service record to the University.

Dr. Rebecca Puhl

Professor, Department of Human Development and Family Sciences
Deputy Director, Rudd Center for Food Policy and Health

Dr. Rebecca Puhl is an internationally recognized leader in the research and prevention of weight stigma.

Dr. Puhl's scholarship focuses on the nature and impact of weight stigma in adults, and the prevalence and effects of weight-based bullying in children. With obesity affecting more than 20% of youth, Dr. Puhl's scholarship has been key in identifying the ways in which weight-based bullying and mistreatment negatively impact children's health and wellbeing. Her research also identifies strategies to reduce weight-based bullying in school and at home. Dr. Puhl's record of scholarship includes 212 peer reviewed articles in scholarly journals across multiple academic disciplines, 24 book chapters, an edited book, and more than 200 conference presentations and 15 keynote addresses.

Dr. Puhl's undergraduate and graduate teaching in HDFS emphasizes training students in professional communication and learning about the complex factors underlying bullying and victimization in youth. She has earned consistent recognition for teaching excellence. As a mentor for graduate students and post-doctoral fellows, Dr. Puhl provides individualized long-term guidance that has led her mentees to earn competitive early career awards from NIH and NSF. Her recently-launched an online educational training resource provides healthcare professionals with evidence-based tools to compassionate and stigma-free patient care for obesity. To date, the resource has been visited over 59,000 times by individuals from 132 countries.

She has consulted with national and international organizations and professional associations, including the World Obesity Federation, Obesity Canada, the UK's National Institute for Health and Healthcare, Excellence, the U.S. Department of Health & Human Services, the National Academies of Sciences, Engineering, and Medicine, the American Academy of Pediatrics, and the Obesity Action Coalition. Her foundational work on the health consequences of weight stigma has been central to reframing obesity stigma as a major public health concern. She has led national and international efforts to foster more compassionate, evidence-based patient care. She co-authored the first national policy statement of the American Academic of Pediatrics on the impact of weight stigma on youth with obesity, offering guidelines the pediatric medical community, and she coauthored the first global consensus statement to eliminate obesity stigma. Dr. Puhl has made more than 3,600 media appearances since joining UConn and is Dr. Puhl one of the world's the most recognized voices on weight stigma.

Dr. Puhl received her B.A.H in Psychology from Queens University, Ontario, Canada, an M.S. and M.Phil. in Psychology from Yale University, and a Ph.D in Clinical Psychology from Yale University.

RE: New Program: JD Certificate in Labor and Employment Law

RECOMMENDATION:

That the Board of Trustees approve the JD Certificate in Labor and Employment Law in The School of Law.

RESOLUTION:

"Be it resolved that the University of Connecticut Board of Trustees approves the JD Certificate in Labor and Employment Law in The School of Law."

BACKGROUND:

The School of Law is proposing a new graduate certificate, offered only to JD students (a JD certificate) in the field of labor and employment law. As University Bylaws allow the School of Law to govern and offer degrees intended for legal education, this JD certificate does not go through Graduate School governance and is awarded through the School of Law to JD students.

A labor and employment law certificate program will provide JD students with the educational opportunities necessary to develop substantive knowledge in key areas of employment and labor law, as well as the analytical and practical tools needed to succeed in a wide range of professional settings, including law firms, government agencies, unions, nonprofit organizations, and corporate legal departments. The certificate will enable students to more effectively market themselves as possessing specialized training in this field and will prepare them to meet the needs of employers and clients navigating complex workplace issues. The courses required for this certificate are already available within the existing JD curriculum.

JD Certificate in Labor and Employment Law

Graduate Certificate

New Program Proposal, June 2026

School of Law

CIP Code: 22.0101

Planned effective term: Fall 2026

Introduction

Labor and employment law is a dynamic and evolving field that encompasses a wide range of practice areas, including workplace discrimination, wage and hour law, labor relations, employment benefits, workplace safety, and employment litigation. As workplaces continue to change in response to economic pressures, technological developments, and shifting regulatory frameworks, the demand for lawyers with specialized expertise in labor and employment law continues to grow. Recent developments—including the rise of remote work, increased attention to workplace equity and inclusion, and evolving federal and state regulatory regimes—have underscored the critical importance of skilled labor and employment lawyers across sectors. The complexity and rapid evolution of this field require aspiring practitioners to develop both a strong substantive foundation and the practical skills necessary to navigate emerging workplace challenges. Toward this goal, the School of Law proposes creating a JD graduate certificate in labor and employment law.

A JD certificate is a program offered only to currently matriculated JD students at the School of Law. JD certificates are reported as graduate certificate completions, but as they are offered only to JD students, they are approved and awarded through the School of Law. This is in contrast to graduate certificates offered by the School of Law to which students can apply directly, or to which students matriculated in other programs outside of the School of Law may apply, which are approved and awarded by The Graduate School.

A labor and employment law certificate program will provide JD students with the educational opportunities necessary to develop substantive knowledge in key areas of employment and labor law, as well as the analytical and practical tools needed to succeed in a wide range of professional settings, including law firms, government agencies, unions, nonprofit organizations, and corporate legal departments. The certificate will enable students to more effectively market themselves as possessing specialized training in this field and will prepare them to meet the needs of employers and clients navigating complex workplace issues. The courses required for this certificate are already available within the existing JD curriculum. The creation of this certificate would allow students to more intentionally focus their studies in this area and clearly communicate that expertise to external constituencies.

A review of peer institutions indicates that, while labor and employment law is widely recognized as a significant and growing field of legal practice, relatively few law schools currently offer a formal JD certificate in this area. Notable exceptions include the Chicago-Kent College of Law and the University of San Francisco School of Law, each of which has established a structured certificate program specifically in labor and employment law. These programs typically combine foundational coursework (such as employment law, labor law, and employment discrimination) with experiential learning requirements and, in some cases, a substantial research or writing component.

Beyond these formal certificate programs, many leading law schools offer robust labor and employment law curricula through concentrations, designated areas of study, or specialized institutes. For example, institutions such as Georgetown University Law Center, University of Minnesota Law School, New York University School of Law, Northeastern University School of Law, and our Connecticut neighbor Quinnipiac Law provide extensive course offerings, clinics, and experiential opportunities in this field, often supported by dedicated centers or faculty expertise. These programs reflect the breadth and importance of labor and employment law, even where a formal credential is not conferred.

This landscape suggests both strong and sustained student and employer interest in labor and employment law, as well as an opportunity for differentiation. The relatively limited number of formal JD certificate programs—particularly when compared to more established certificate areas such as health law or intellectual property—indicates that the creation of a labor and employment law certificate would position the School of Law among a smaller group of peer institutions offering a clearly defined, credentialed pathway in this field. At the same time, the prevalence of curricular concentrations and experiential programs at top law schools underscores the importance of providing students with structured opportunities to develop expertise in workplace law and policy. Enabling student success in this field is essential to powering a thriving Connecticut and promoting holistic student success, two central University priorities.

Program Information

Location(s)/Modalities

School of Law, in-person

Catalog Description

The JD Certificate in Labor and Employment Law provides JD students with an opportunity to develop focused expertise in the legal regulation of the workplace. This program is designed for students interested in representing employers, employees, unions, government agencies, or nonprofit organizations, and offers a structured pathway through the School of Law's existing curriculum to deepen knowledge in this dynamic and evolving field.

To earn the certificate, students must complete a minimum of 15 credits in approved coursework. The program requires completion of foundational courses in employment law, labor law, and employment discrimination, ensuring that students gain a strong grounding in the core doctrines governing the employment relationship. Students must also complete at least one additional core course and one course in an adjacent field. Experiential learning opportunities may also be counted toward the certificate, subject to faculty approval.

Plan of Study

Required Courses (9 credits)

- LAW7655: Employment Discrimination
- LAW7766: Labor Law: The Union Organizing Campaign and the National Labor Relations Act
- LAW7773: Employment Law

Core Courses (3-6 credits)

- LAW7329: Labor Law: Strikes, Picketing, and Secondary Boycotts
- LAW7600: Administrative Law
- LAW7672: Immigration Law
- LAW7857: Problems in Employment Law
- LAW7928: Employee Benefits and the Employee Retirement Income Security Act
- LAW7996: Field Placement, Individual¹
- LAW7999: Special Research Project²

Courses in Adjacent Fields (0-3 credits)

- LAW7299: Corporations and Human Rights
- LAW7330: Corporate Governance and Sustainability
- LAW7341: Diversity and the Corporation
- LAW7360: Diversity and Inclusion in the Legal Profession
- LAW7365: Speech, Society, and the First Amendment
- LAW7416: Clinic: Disability Rights
- LAW7554: Compliance: The Legal Perspective
- LAW7605: Business Organizations
- LAW7715: Intellectual Property
- LAW7777: Race and the American Legal System
- LAW7878: International Human Rights
- LAW7947: Right to Privacy
- PP5365: Human Resource Management

Courses may be added to or removed from this list with the approval of the Associate Dean for Academic Affairs or her/his designee.

¹ Work in such placement must pertain to Labor and Employment Law with an appropriate law firm, company, government, or non- governmental organization and be approved by a faculty advisor for the Certificate program before the field placement begins.

² The project must pertain to Labor and Employment Law and be approved by a faculty advisor for the Certificate program before work on the project begins.

Program Learning Objectives

Upon successful completion of the JD Certificate in Labor and Employment Law, students will be able to:

1. Explain the legal rights, duties, and remedies available to workers and employers in the United States.
2. Explain the procedural and administrative requirements that workers and employers may face when seeking to vindicate such rights.
3. Demonstrate a basic understanding of various modes of workplace governance (including managerial control, regulatory compliance, and collective bargaining) as well as various forms of alternative dispute resolution in the U.S. workplace (including mandatory individual arbitration and grievance arbitration in the shadow of collective bargaining).
4. Identify and articulate issues presented by recurring conflicts in and arising out the American workplace for which existing law may be unsuitable.
5. Demonstrate a basic understanding of the historical development of Labor and Employment Law in the United States.
6. Identify and evaluate arguments from varying perspectives (management side, employee side, and public and consumer interests) regarding potential legal issues in the American workplace and possible solutions to them.

The law school will assess the proposed certificate within the framework used to assess programs for its accreditation with the American Bar Association. The law school's Learning Assessment Committee regularly assess the impact of its JD programs with respect to student engagement and participation, career placement in related legal fields, and feedback from alumni and employers.

Curricular Map

Course	Instructor	Instructor Status	Credits	Frequency	Learning Objectives
LAW7655: Employment Discrimination	Peter Siegelman, Jon Bauer	FT	3	Every year	1, 2, 3, 4, 5, 6
LAW7766: Labor Law: The Union Organizing Campaign and the National Labor Relations Act	Michael Fischl	FT	3	Every year	1, 2, 3, 4, 5, 6
LAW7773: Employment Law	Sachin Pandya	FT	3	Every year	1, 2, 3, 4, 5, 6

Assessment Plan OR Specialist/Programmatic Accreditation

The American Bar Association is the accrediting body for the law school, and the certificate will be assessed through that accreditation process. We assess all programmatic learning objectives in a ten-year year cycle. The program will draw on courses that are already assessed as part of our curriculum and will not have any impact on our accreditation. The program will be immediately offered as part of our JD program, and there are no other steps we need to take for the program to be covered by our accreditor.

Graduate Outcomes

JD students who complete the Labor and Employment Law Certificate are well prepared for roles in a variety of settings, including law firms, government agencies, unions, nonprofit organizations, and corporate legal departments.

Projected Enrollment, Resources, and Evaluation

The proposed certificate will have no impact on staffing or resources, since the courses needed for the certificate are already taught regularly at the School of Law. Students will be advised by the Certificate Director, Michael Fischl.

Students

We anticipate enrollment in the certificate will follow trends of similar certificates, such as our Human Rights Certificate. Between 10 and 15 students graduate with the Human Rights Certificate each year. Only matriculated JD students will be eligible for the certificate. International students will not enroll.

Budget Projections

The proposed certificate will be completed together with the JD and will not generate any additional revenue, nor incur any additional costs.

Program Evaluation

We will review the success of the program as part of our assessment of learning outcomes. Metrics will include number of graduating students, course enrollment, student success, and student outcomes. Students enrolled in courses comprising the certificate will also complete Student Experience of Teaching surveys at the completion of each course.

RE: Program Closure: Graduate Certificate in Literacy Supports in The Graduate School

RECOMMENDATION:

That the Board of Trustees approve the closure of the Graduate Certificate Literacy Supports in The Graduate School.

RESOLUTION:

"Be it resolved that the University of Connecticut Board of Trustees approves the closure of the Graduate Certificate in Literacy Supports in The Graduate School."

BACKGROUND:

The Graduate Certificate in Literacy Supports was approved in 2015 and was intended to provide current and future special education teachers and other educational professionals with the knowledge and skills to be leaders in the effort to close the literacy achievement gap in Connecticut. However, a decade later, the certificate has no students currently enrolled, and the Neag School of Education have determined that a program closure is appropriate. As there are no enrolled students, a teach-out plan is not required.

RE: Academic Program Inventory

BACKGROUND:

In accordance with Connecticut General Statutes § 185-10a-35a, authority over establishment of new academic programs, the Board of Trustees for The University of Connecticut is provided with the authority, "to review and approve recommendations for the establishment of new academic programs at the university." These programs are reported to the Office of Higher Education, which maintains an inventory of approved academic programs offered by public and independent colleges and universities in Connecticut.

Core information provided on these program listings including credential type, locations and modalities in which programs are offered, program names, and CIP (Classification of Instructional Programs) codes are vital for students and for external reporting.

The Provost presents changes to the name or CIP code of programs, the addition or removal of locations or modalities, or the suspension of programs to the Board for informational purposes. Such changes have already been approved through appropriate shared governance bodies in schools and colleges and by the Council of Deans.

ACADEMIC INVENTORY CHANGES:

Program Suspensions:

Program suspensions temporarily pull a program from the UConn program portfolio. Teach-out plans, where necessary, are included in the following pages. Suspensions are monitored, and programs suspended for two years or more must be closed.

The Graduate School:

- Program suspension: Graduate Certificate in Health Care Innovation. Effective catalog year: AY 2026 – 2027.
- Program suspension: Graduate Certificate in Neurobiology of Language. Effective catalog year: AY 2026 – 2027.

RE: Academic Centers and Institutes

The *By-Laws of the University of Connecticut*, Article XII, state that "All centers and institutes will be reviewed on a five-year cycle to determine their continued contribution to the University's mission," and that the "Provost will routinely inform the Board of Trustees ... of the establishment and discontinuation of all centers and institutes." This document represents such notice.

BACKGROUND:

Following review and deliberation, the following Academic Centers and Institutes are being established, renewed or discontinued:

Established

- Center for Addiction Science and Innovation (CASI)
- Center for Pharmaceutical Manufacturing Modernization (CPMM)
- Center for Research on Sexual Violence and Empowerment (CRSVE)

Renewed for five-year term

- Center for Energy and Environmental Law (CEEL)
- Center for Judaic Studies and Contemporary Life
- Collins Aerospace Center for Advanced Materials
- Gladstein Family Human Rights Institute (HRI)
- International Center for Life Story Innovations and Practice (ICLIP)

Discontinued

- Center for Advancement in Managing Pain (CAMP)
- Center for Environmental Health and Health Promotion (CEHHP)

Mission statements for established and renewed Academic Centers and Institutes are available on the following pages.

Center for Addiction Science and Innovation (CASI)

The mission of the Center for Addiction Science and Innovation (CASI) is to accelerate the development of novel therapeutics for substance use disorders by fostering cutting-edge research, advancing therapeutic innovation, and translating preclinical findings into clinical solutions.

Center for Pharmaceutical Manufacturing Modernization (CPMM)

The mission of the Center for Pharmaceutical Manufacturing Modernization is to accelerate the adoption of advanced technologies in pharmaceutical development and manufacturing, ensuring US pharmaceutical independence, efficiency, sustainability, and accessibility of high-quality medicines in the nation and worldwide.

Center for Research on Sexual Violence and Empowerment (CRSVE)

The mission of the Center for Research on Sexual Violence and Empowerment is to support interdisciplinary research on the development of healthy relationships and sexual pleasure without violence, judgement, or shame, and to encourage a culture that embraces diversity across sexual relationships, experiences, and identities.

Center for Energy and Environmental Law (CEEL)

The Center for Energy & Environmental Law (CEEL) was created in 2010 with the mission to become part of a program for combined legal education, policy, and scholarship. CEEL offers students the ability to focus their studies by bringing together experts from many disciplines to tackle the complex challenges related to the world's environmental and energy futures.

Center for Judaic Studies and Contemporary Life

The mission of the Center for Judaic Studies and Contemporary Life is to foster research and scholarship in Judaic Studies, enrich undergraduate and graduate education in Judaic Studies as part of a general liberal arts education, and provide resources for continuing education and community service.

Collins Aerospace Center for Advanced Materials

The mission of the Collins Aerospace Center for Advanced Materials is to offer educational funding to graduate and undergraduate students as well as post-doctoral fellows in areas related to materials development and characterization. It provides an opportunity for firsthand interactions with an industrial partner whose focus is on advanced aerospace and defense products.

Gladstein Family Human Rights Institute (HRI)

The Gladstein Family Human Rights Institute advances human rights knowledge and practice through research, teaching, and engagement. As a university-wide program under the Office of Global Affairs, the mission of the Gladstein Family Human Rights Institute is to support interdisciplinary inquiry into the most pressing human rights questions and prepare the next generation of human rights advocates.

International Center for Life Story Innovations and Practice (ICLIP)

The mission of the International Center for Life Story Innovations and Practice (ICLIP) is to bring together researchers, educators, practitioners, students, historians, and artists from around the world to promote the health and well-being of individuals, families, and communities through written and oral narratives, personal histories, reminiscence, life review, autobiographical memory, and guided autobiographies. With the overarching goal of generating new knowledge in this emerging field, ICLIP provides a collaborative infrastructure to establish programs of research, implement educational programs, develop innovative applications in practice, and disseminate life story best practices.
